

Fuerzas de las patas sobre la plataforma: $\mathbf{w} = \mathbf{J}^\top \mathbf{F}, \;\; \mathbf{F} = [F_1 \;\; \cdots \;\; F_6]^\top$

Perturbación: $\boldsymbol{\tau}_d = [\, \mathbf{f}_d^\top \quad \mathbf{m}_d^\top \,]^\top$

$\mathbf{M}\ddot{\mathbf{q}} + \mathbf{C}\dot{\mathbf{q}} + \mathbf{g} = (\mathbf{JT})^\top \mathbf{F} + \boldsymbol{\tau}_d$
